

Annex: National regulation/National Factsheet Innovation Fund Denmark

Innovation Fund Denmark's (IFD) purpose is to advance research, development, testing and validation of innovative solutions for the benefit of growth and employment in Denmark, as well as to solve societal challenges. The projects IFD invest in must create a clear societal value and/or economic value in Danish public and private companies and/or for beneficiaries in society e.g. citizens, the state, regions and municipalities. IFD can invest in international projects if such the projects can strengthen Danish research and innovation.

Eligibility and General Terms and Conditions

IFD encourage all types of partners to participate in the consortia, which creates a clear societal value and/or economic value in Danish public and private companies and/or for beneficiaries in Danish society e.g. citizens, the state, regions and municipalities.

For eligibility and general terms and conditions, please refer to [“The General Terms and Conditions for International Projects”](#).

Each Danish partner must register and upload individually their international application using our national e-grant portal. The deadline for registration on e-grant is five working days after the Call deadline. For more details see the Call on IFD homepage.

Investment Rates

IFD can invest in projects at TRL 2-7 and with a maximum of 350.000 € for all Danish partners per project.

The general maximum investment rates for Danish partners are summarized in the table below. For further details see: [The General Terms and Conditions for International Projects](#)
